APPENDIX G-3

III. Reasonable Distance, Very Low Income, Child Support, Family Share, Case Closings and Openings and Case Reviews (Required Section)

Reasonable Distance

Your district is required to define reasonable distance based on community standards for determining accessible child care.

The following defines "reasonable distance":

- 1. Pre-School Children (and all children up to 13 years of age during school vacations):**
 - **Individuals having their own vehicle or arranged transportation will not be penalized if their childcare provider is in excess of 15 miles from the most direct route to work or work activity.**
 - **Individuals who have no transportation will not be penalized if their work/work activities are in excess of a two-mile radius of their residence. Child care would fall within the same parameters.**
- 2. School-age children:**
 - **Individuals will not be penalized if the child care provider exceeds the school district standards for walking distance or bus service, whichever applies.**

Describe any steps/consultations made to arrive at your definition: Workgroups between Services Day Care unit and Public Assistance unit.

Very Low Income

Very Low Income is defined by each district and is used in determining priorities for child care benefits.

Very Low Income is defined as **185%** of the State Income Standard.

Definition of Engaged in Work for Child Care in Lieu of Temporary Assistance

The minimum number of hours for Federal Fiscal Year 2006 are:

- 20 hours for a single parent with a child under the age of six years old
- 30 hours for a single parent whose children are six years of age and older
- in two parent families the parents must be working a combined total of 55 hours with at least one parent working 30 or more hours.

Cattaraugus County does not propose a higher minimum number of hours of work.

Family Share

Family share is the weekly amount paid towards the costs of the child care services by the child's parent or caretaker. In establishing family share, your district must select a

percentage from 10 percent to 35 percent to use in calculating the family share. The family share of child care is calculated by applying the family share percentage against the amount of the family's gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by our district **10%**.

Case Closings (select one)

Our district has established local priorities beyond the federally-mandated priorities. If all NYSCCBG funds are committed, our district will discontinue funding to those families that have lower priorities in order to serve families with higher priorities. Described below is how our district will select cases to be closed in the event that there are insufficient or no funds available.

(In this order, as limitations exist):

- 1. Cases above 185% of the State Income Standard (SIS)**
- 2. Families participating in educational programs**
- 3. Families that have children who have special needs**
- 4. Families whose income is up to 185% of the SIS**

Within categories listed above families receiving child care services for the shortest amount of time will be closed first.

Our district has not established priorities beyond the federally-mandated priorities. If all NYSCCBG funds are committed, case closings for families which are not eligible under a child care guarantee and are not a federally-mandated priority must be based on the length of time in receipt of services. The length of time used to close cases may be based either on the shortest or longest time receiving child care services but must be consistent for all families. Our district has chosen to close cases based on

- shortest time receiving child care services
- longest time receiving child care services

Case Openings

Described below is how our district will select cases to be opened in the event that there are insufficient funds available.

Cases will be opened in reverse order of case closings.

Fraud and Abuse Control Activities

The district must identify below the criteria it will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payment and procedures for referring such applications to the district's front end detection system.

The district will use the following FEDS indicators: working off the books, application inconsistent with prior case, prior history of denial, self-employed, but without adequate business records, documents or information provided are inconsistent with application, such as different name used for signature, post office box used without reasonable explanation, no absent parent information, prior application showed legally responsible relative who is not there now.

The district must describe below its sampling methodology used to determine which cases it will seek verification of an applicant or recipient's continued need for child care including, as applicable, verification of participation in employment, education or other required activities.

- 1. Check pay stubs and hours of work**
- 2. If they do not match with hours of daycare, we ask for clock-in/clock-out hours**
- 3. We get school schedules**

If, within a six-month period, any case has not been reassessed for income, job change, schedule changes, etc., then the child care unit will review that case, and those cases will be re-certified at that time, if appropriate. Therefore, 100% of cases will be reviewed every six months.

The district must describe below its sampling methodology used to determine which child care providers of subsidized child care services they will review for the purpose of comparing the child care providers attendance forms for children receiving subsidized child care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

ACCORD Corporation will be reviewing cases, beginning with those which have had some concerning issues but were not disqualifiable at face value.

ACCORD Corporation runs the child care food program for Cattaraugus County, and will ask the County for attendance with sampled providers. Again, ACCORD will begin to sample with any "questionable" situations, if any.

There are approximately 36 child care providers that participate in the Child and Adult Care Food Program (CACFP), excluding day care centers. First, Cattaraugus County DSS will ask ACCORD to do site inspections on those providers who are enrolled in the food program and whom it feels may be providing DSS with questionable child care information. After those providers are chosen (let us say that would be ten providers), DSS will compare the site inspection reports sent to the day care unit of the next 26 providers that also have children being paid through the block grant.

The DSS child care unit will compare its timesheets with site inspection report lists of children in attendance during the inspection.

APPENDIX G-4

Limitations to the above differentials are as follows:

Payments may not exceed 15 percent above market rate. However, if your district wishes to establish a payment rate that is in excess of 15 percent above the applicable market rate you must describe below why the 15 percent maximum is insufficient to provide access within the district to accredited programs and/or care provided during non-traditional hours.

Breaks in Activities

Districts may pay for child care services for low income families during breaks in activities for a period not to exceed two weeks or for a period not to exceed one month where child care arrangements would otherwise be lost and the subsequent activity is expected to begin within that period (check one).
