APPENDIX G-3

III. Reasonable Distance, Very Low Income, Family Share, Case Closings and Openings, and Fraud and Abuse Control Activities_ (Required Section)

Reasonable Distance

Your district is required to define reasonable distance based on community standards for determining accessible child care.

The following defines "reasonable distance": **Thirty miles, one way, from a child care provider.**

Describe any steps/consultations made to arrive at your definition: **The “reasonable distance” standard was derived by contacting local school districts and the area chamber of commerce, and by conducting an informal poll of agency staff to determine the area in which the aforementioned parties would operate, look for work, or conduct business. Additionally, two of the major metropolitan centers- Utica and Syracuse- are within 30 miles from any one location in the county. Last, we looked at the dispersion of certified care in the county and found all homes and centers are within 30 miles from any location in the county.**

The “30 miles from a child care provider” is the one-way distance from home to the child care provider. We are a rural county that utilizes the business and infrastructure of Syracuse and Utica for job referrals and placement. We do, however, also have the convenience of several high speed road networks into these metropolitan areas including the NYS Thruway, Routes 5, 20, and 31, in addition to various other local roads. The standard of “30 miles from a child care provider” is reasonable for this county given the commute distance and time to the job markets.

Very Low Income

Very Low Income is defined by each district and is used in determining priorities for child care benefits.

Very Low Income is defined as **200%** of the State Income Standard.

Family Share

Family share is the weekly amount paid towards the costs of the child care services by the child’s parent or caretaker. In establishing family share, your district must select a percentage from 10% to 35% to use in calculating the family share. The family share of child care is calculated by applying the family share percentage against the amount of the family’s annual gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by our district **25%**.

Case Closings (select one or two)

1. The district must describe below how priority is given to federally mandated priorities and describe local priorities. If all NYSCCBG funds are committed, the district will discontinue funding to those families that have lower priorities in order to serve families with higher priorities. Described below is how the district will select cases to be closed in the event that there are insufficient or no funds available.

2. The district has not established priorities beyond the federally-mandated priorities. If all NYSCCBG funds are committed, case closings for families which are not eligible under a child care guarantee and are not a federally-mandated priority must be based on the length of time in receipt of services. The length of time used to close cases may be based either on the shortest or longest time receiving child care services but must be consistent for all families. The district has chosen to close cases based on:

- shortest time receiving child care services
- longest time receiving child care services

Case Openings

The district must describe below how priority is given to federally mandated priorities and how the district will select cases to be opened in the event that there are insufficient funds available.

Madison County will select cases to be opened when there are insufficient funds available in the following manner:

- 1.) All of the optional categories of eligible families listed in Appendix G-2 of this Plan whom our district has chosen to serve will be given equal consideration for the limited funding. Applicants will be placed on a waiting list in order of their application date. As slots open up, those applicants with the earliest application dates will be opened first. Regardless of which optional category an applicant falls under, the status of their case opening will be determined by their place on the waiting list and the availability of funding.**

- 2.) Cases that were closed due to insufficient funds will have to reapply and will be placed on the waiting list as outlined above.**

Fraud and Abuse Control Activities

The district must identify below the criteria it will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payment and procedures for referring such applications to the district’s front end detection system.

If an application has one or more of the indicators listed below, and the eligibility worker is not confident that the indicator has been explained or supported adequately, the application will be referred to our investigative unit for a FEDS investigation. Madison

County has identified the following criteria or indicators which will pertain to Child Care applications:

- Working off the books (currently or previously)
- Application is inconsistent with prior case information.
- Prior history of denial, case closing, or overpayment resulting from an investigation.

When an application is received by the eligibility worker and has one or more of the above indicators and the worker is not confident that the indicator has been explained, the case is referred for a FEES investigation. The case is referred to the Investigations unit using a FEES referral form. Upon review and signed approval by the eligibility worker's supervisor, the form along with a copy of the application is forwarded manually to the investigative unit. Upon completion of the investigation, the investigator prepares a written report that includes any findings related to the referral and any recommendation for action. The written report is forwarded to the eligibility worker. This process is to be completed in 30 days or less.

The district must describe below its sampling methodology used to determine which cases it will seek verification of an applicant or recipient's continued need for child care including, as applicable, verification of participation in employment, education or other required activities.

Each month a random sample of 12 cases, for which payments were made, will be selected and verification will be sought regarding the recipients continued need for child care including, as applicable, verification of participation in employment, education or other required activities. Written requests will be mailed to employers, educational providers, and other providers of required activities as applicable to verify continued employment and/or hours of employment; continued enrollment in education and attendance; continued participation in other required activities; etc.

The district must describe below its sampling methodology used to determine which child care providers of subsidized child care services they will review for the purpose of comparing the child care providers attendance forms for children receiving subsidized child care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

Each month all of the child care providers of subsidized care who are CACFP providers will be reviewed for the purpose of comparing the child care providers attendance forms for children receiving subsidized care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms. A staff person from the enrollment agency (Mid York Child Care Council) is co-located at the Madison County DSS and that staff person will receive copies of all child and adult care food program inspection forms from the food program coordinator. The DSS eligibility worker will obtain the food program inspection forms from the enrollment agency staff person that pertain to providers for children receiving subsidized care each month.

If a district elects to establish a payment rate that is in excess of the enhanced market rate for legally- exempt family and in-home child care providers who have annually completed 10 or more hours of training and the training has been verified by the legally-exempt care giver enrollment agency. The district must state the percentage above the market rate it proposes to use.
