APPENDIX M

Reasonable Distance, Very Low Income, Family Share, Case Closing and Openings, Recertification Period, Fraud and Abuse Control Activities, Inspections (Required)

Reasonable Distance

Define “reasonable distance” based on community standards for determining accessible child care.

The following defines “reasonable distance”: A one-way trip, which takes no longer than ninety minutes to accessible childcare and a work activity.

- Describe any steps/consultations made to arrive at your definition: NYS requires each county to define reasonable distance in terms of time and/or distance in miles. Each county must answer the question, how long (in hours and minutes, or miles) is it reasonable to expect FA and SN recipients to travel, in going from home to work activity site, with a stop at a childcare provider along the way? The answer to these questions varies from county to county, and is dependent upon a number of factors, including the location of the communities where welfare recipients live, the locations of child care providers and employers, and the availability of public and private means of transportation. The Nassau County Department of Social Services (DSS) is responsible for defining reasonable distance for the TANF and SN programs, as it relates to childcare accessibility and work activity participation. In developing this definition, Nassau County DSS reviewed the demographics of the welfare population, the availability of public and private transport, and the distribution of employers and childcare providers in Nassau County. This analysis included consultation with the Long Island Regional Office of the NYS Department of Labor and MTA Long Island Bus. Based upon this analysis, the above definition of reasonable distance had been developed.

Very Low Income

Define “very low income” as it is used in determining priorities for child care benefits.

“Very Low Income” is defined as **200%** of the State Income Standard.

Family Share

“Family share” is the weekly amount paid towards the costs of the child care services by the child’s parent or caretaker. In establishing family share, your district must select a percentage from 10% to 35% to use in calculating the family share. The weekly family share of child care costs is calculated by applying the family share percentage against the amount of the family’s annual gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by the county **20%**.

Note: The percentage selected here must match the percentage selected in Title XX Program Matrix in WMS.

NASSAU COUNTY – 2015 APU

Case Closings

The district must describe below how priority is given to federally mandated priorities and describe local priorities. If all NYSCCBG funds are committed, the district will discontinue funding to those families that have lower priorities in order to serve families with higher priorities. 1. Identification of local priorities in addition to the required federal priorities (select one).

- The district has identified local priorities in addition to the required federal priorities (Complete Section 2)
- The district has not identified local priorities in addition to the required federal priorities (Complete Section 3).

for Legally-Exempt and In-Home Providers, and Sleep (Optional)**

Transportation

Payments may not exceed 15% above market rate. However, if your district wishes to establish a payment rate that is more than 15% above the applicable market rate, describe below why the 15% maximum is insufficient to provide access within the district to accredited programs and/or care provided during non-traditional hours.

Enhanced Market Rate for Legally-Exempt Family and In-Home Child Care Providers
