

Report Identification Number: BU-20-010

Prepared by: New York State Office of Children & Family Services

Issue Date: Nov 18, 2020

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 3 month(s)

Jurisdiction: Orleans
Gender: Male

Date of Death: 05/23/2020
Initial Date OCFS Notified: 05/23/2020

Presenting Information

An SCR report alleged on 5/23/20, around 3:00 AM, the 3-month-old subject infant was crying and the mother woke to feed him. The mother fed the infant a bottle of formula then placed the infant on her bed between herself and the father in a bed-sharing situation. Around 5:30 AM, the mother discovered that the infant was lying on his back with a blanket pulled up to his chin, and was not breathing. The parents took the infant to the maternal grandmother's room, called 911 and started CPR. Law enforcement responded and the infant was taken to the hospital via ambulance, where he was pronounced deceased. The infant died due to an unsafe sleep situation.

Executive Summary

On 5/23/20, the Orleans County Department of Social Services (OCDSS) received an SCR report regarding the death of the 3-month-old subject infant. At the time of his death, the infant resided with his mother, maternal grandmother and his twin 3-month-old sibling. The father did not reside in the home but he spent every weekend there.

OCDSS conducted a joint investigation with law enforcement and learned that on the morning of 5/23/20, the mother fed the subject infant a bottle around 3:00 AM, then placed the infant on his back in the bed between herself and the father. When the parents woke up around 6:00 AM, they discovered the infant was still on his back, his face was partially covered with a blanket, and he was not breathing. The mother brought the infant into the grandmother's bedroom and the grandmother called 911. The parents performed CPR until EMS arrived and took over life-saving measures. The infant was transported to the hospital via ambulance, where resuscitative efforts were unsuccessful, and the infant was pronounced deceased. The twin sibling was sleeping in a crib in another bedroom at the time of the incident.

An autopsy was performed, and the final report was pending at the time this report was written. Law enforcement reported finding nothing suspicious and their investigation remained open pending final autopsy results.

OCDSS interviewed all household members and assessed the home for safety. OCDSS learned that the parents were aware of safe sleep guidelines and they provided additional education to the family regarding safe sleep. The sibling's safety was assessed throughout the investigation and there were no concerns expressed for his care.

OCDSS provided the parents with funeral assistance and they referred the parents for mental health and grief services. At the time this report was written, the investigation remained open pending the final autopsy report.

Findings Related to the CPS Investigation of the Fatality

Safety Assessment:

- **Was sufficient information gathered to make the decision recorded on the:**

- **Approved Initial Safety Assessment?** Yes

○ Safety assessment due at the time of determination? N/A

- Was the safety decision on the approved Initial Safety Assessment appropriate? Yes

Determination:

- Was sufficient information gathered to make determination(s) for all allegations as well as any others identified in the course of the investigation? The CPS report had not yet been determined at the time this Fatality report was issued.
- Was the determination made by the district to unfound or indicate appropriate? N/A

Explain:

The case remained open for investigation at the time this report was written.

Was the decision to close the case appropriate? N/A

Was casework activity commensurate with appropriate and relevant statutory or regulatory requirements? Yes

Was there sufficient documentation of supervisory consultation? Yes, the case record has detail of the consultation.

Explain:

Casework activity was commensurate with best casework practice.

Required Actions Related to the Fatality

Are there Required Actions related to the compliance issue(s)? Yes No

Fatality-Related Information and Investigative Activities

Incident Information

Date of Death: 05/23/2020

Time of Death: Unknown

Time of fatal incident, if different than time of death: Unknown

County where fatality incident occurred: Orleans

Was 911 or local emergency number called? Yes

Time of Call: Unknown

Did EMS respond to the scene? Yes

At time of incident leading to death, had child used alcohol or drugs? N/A

Child's activity at time of incident:

- Sleeping
- Working
- Driving / Vehicle occupant
- Playing
- Eating
- Unknown
- Other

Did child have supervision at time of incident leading to death? Yes

How long before incident was the child last seen by caretaker? 2 Hours

At time of incident supervisor was:

- Drug Impaired
- Alcohol Impaired
- Distracted
- Impaired by disability
- Absent
- Asleep
- Impaired by illness
- Other:

Total number of deaths at incident event:

Children ages 0-18: 1

Adults: 0

Household Composition at time of Fatality

Household	Relationship	Role	Gender	Age
Deceased Child's Household	Deceased Child	Alleged Victim	Male	3 Month(s)
Deceased Child's Household	Grandparent	No Role	Female	53 Year(s)
Deceased Child's Household	Mother	Alleged Perpetrator	Female	25 Year(s)
Deceased Child's Household	Sibling	No Role	Male	3 Month(s)
Other Household 1	Father	Alleged Perpetrator	Male	49 Year(s)

LDSS Response

On 5/23/20, OCDSS received the report from the SCR and they coordinated efforts with law enforcement. They notified the DA's office about the fatality and they gathered additional information from emergency room staff, EMS, the fire department, and the medical examiner's office.

OCDSS conducted a home visit with law enforcement, and they interviewed the parents, maternal grandparents and a family friend. They observed the sibling and determined he was safe in his parents' care.

Through interviews, it was learned that the twins were born full-term via emergency c-section. The parents reported the subject infant's weight was being monitored by his pediatrician and he was seeing a pulmonologist for an issue with his trachea, otherwise he was healthy. They reported giving the twins acetaminophen the day prior to the incident due to teething. The twins typically slept in separate cribs in the twin's bedroom, although the mother often brought one of the infants into her bed and co-slept with them. The parents' bed was observed to be a double bed with two pillows, a comforter and a blanket on it. The two cribs were both observed to have blankets and a u-shaped pillow in them. OCDSS instructed the parents to remove the items from the cribs and the parents agreed not to co-sleep with the sibling.

The parents reported that the grandmother watched the twins on the evening of 5/22/20 while the mother picked up the father. When the parents arrived at the mother's home around 10:45 PM, the twins were sleeping in baby swings in the living room. The mother moved the twins to the cribs that were in the twin's bedroom and the parents went to bed. The subject infant woke up around 2:30 AM and the mother fed him a bottle of formula. The infant was fussing so she placed him on his back in the bed between herself and the father, and the mother and infant fell asleep. The father woke up around 6:00 AM and he noticed the infant was lying on his back in the bed. The father went to the bathroom while the mother checked on the infant. She noticed a small blanket was partially covering the infant's face and he was pale and not breathing.

The grandmother stated that the twins seemed fine when she was watching them, and she had no concerns for their care. She said she was woken up by the mother bringing the infant into her bedroom and she was screaming that the infant wasn't breathing. She said they tried to put the infant on oxygen that the grandmother used and then she called 911. The grandfather reported no concerns for the parents' care of the twins.

First responders reported that the father was performing CPR on the infant when they arrived. The infant was still warm and there was no bruising observed on his body. The pediatrician stated that she had no concerns for the parents' care of the twins. She confirmed that she was monitoring the twins' weight gain and they were both sick the previous month with a lung infection. The twins were subsequently seen by a pulmonologist and the subject infant was diagnosed with a tracheal condition that he was expected to outgrow.

Official Manner and Cause of Death

Official Manner: Pending

Primary Cause of Death: Pending

Person Declaring Official Manner and Cause of Death: Medical Examiner

Multidisciplinary Investigation/Review

Was the fatality investigation conducted by a Multidisciplinary Team (MDT)? Yes

Was the fatality reviewed by an OCFS approved Child Fatality Review Team? No

Comments: Orleans County does not have an OCFS approved Child Fatality Review Team.

SCR Fatality Report Summary

Alleged Victim(s)	Alleged Perpetrator(s)	Allegation(s)	Allegation Outcome
055276 - Deceased Child, Male, 3 Mons	055277 - Mother, Female, 25 Year(s)	DOA / Fatality	Pending
055276 - Deceased Child, Male, 3 Mons	055277 - Mother, Female, 25 Year(s)	Inadequate Guardianship	Pending

Fatality Safety Assessment Activities

	Yes	No	N/A	Unable to Determine
Were there any surviving siblings or other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of impending or immediate danger to surviving siblings/other children in the household named in the report:				
Within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 7 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 30 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an approved Initial Safety Assessment for all surviving siblings/ other children in the household within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any safety issues that need to be referred back to the local district?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When safety factors were present that placed the surviving siblings/other children in the household in impending or immediate danger of serious harm, were the safety interventions, including parent/caretaker actions adequate?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Fatality Risk Assessment / Risk Assessment Profile

	Yes	No	N/A	Unable to Determine
Was the risk assessment/RAP adequate in this case?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
During the course of the investigation, was sufficient information gathered to assess risk to all surviving siblings/other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of the family's need for services?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did the protective factors in this case require the LDSS to file a petition in Family Court at any time during or after the investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were appropriate/needed services offered in this case	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Explain:

Risk was adequately assessed and the parents were referred for counseling services.

Placement Activities in Response to the Fatality Investigation

	Yes	No	N/A	Unable to Determine
Did the safety factors in the case show the need for the surviving siblings/other children in the household be removed or placed in foster care at any time during this fatality investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were there surviving children in the household that were removed either as a result of this fatality report / investigation or for reasons unrelated to this fatality?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Legal Activity Related to the Fatality

Was there legal activity as a result of the fatality investigation? There was no legal activity.

-------	--------------------------	--------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------	--------------------------

Were services provided to parent(s) and other care givers to address any immediate needs related to the fatality? Yes

Explain:
The parents were provided with funeral assistance and the mother planned to engage in counseling services.

History Prior to the Fatality

Child Information

- Did the child have a history of alleged child abuse/maltreatment? No
- Was the child ever placed outside of the home prior to the death? No
- Were there any siblings ever placed outside of the home prior to this child's death? No
- Was the child acutely ill during the two weeks before death? No

Infants Under One Year Old

During pregnancy, mother:

- Had medical complications / infections
- Misused over-the-counter or prescription drugs
- Experienced domestic violence
- Was not noted in the case record to have any of the issues listed
- Had heavy alcohol use
- Smoked tobacco
- Used illicit drugs

Infant was born:

- Drug exposed
- With neither of the issues listed noted in case record
- With fetal alcohol effects or syndrome

CPS - Investigative History Three Years Prior to the Fatality

There is no CPS investigative history in NYS within three years prior to the fatality.

CPS - Investigative History More Than Three Years Prior to the Fatality

There was no CPS investigative history more than three years prior to the fatality.

Known CPS History Outside of NYS

There is no known CPS history outside of New York State.

Legal History Within Three Years Prior to the Fatality

Was there any legal activity within three years prior to the fatality investigation? There was no legal activity

Recommended Action(s)

Are there any recommended actions for local or state administrative or policy changes? Yes No

Are there any recommended prevention activities resulting from the review? Yes No
