

Report Identification Number: NY-22-045

Prepared by: New York City Regional Office

Issue Date: Nov 28, 2022

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 2 month(s)

Jurisdiction: Queens
Gender: Male

Date of Death: 06/12/2022
Initial Date OCFS Notified: 06/12/2022

Presenting Information

An SCR report alleged on 6/11/22, sometime prior to 10:30 PM, the mother cleaned the 2-month-old infant's nose as the infant had a cold. At approximately 10:30 PM, the mother was sleeping with the infant in the mother's bed, which was the usual sleeping arrangement for the infant. At approximately 12:30 AM, on 6/12/22, the mother woke to find the infant unresponsive and not breathing. The mother called 911. At approximately 12:48 AM, EMS arrived and performed CPR on the infant. The infant was transported to the hospital. At 1:43 AM the infant was pronounced dead. The infant was otherwise healthy. The role of the father and siblings was unknown.

Executive Summary

On 6/12/22, an SCR report was received regarding the death of the 2-month-old male infant that occurred on that date. The SCR report contained allegations of DOA/Fatality and Inadequate Guardianship against the mother. The Administration for Children's Services (ACS) received the report and investigated the infant's death. At the time of the infant's death, he resided with his mother, father, and two siblings, ages 5 and 1. The parents had no CPS history, and the siblings were assessed to be safe in the parents' care.

The investigation revealed that on 6/11/22, at 8:30 PM, the mother laid the infant down on his stomach on the parents' bed, with a pacifier in his mouth, as she did nightly. She placed him between two pillows, about a foot from the headboard. The mother checked on the infant at 12:30 AM, and she discovered the infant's arm and head were stuck between the mattress and headboard and he was unresponsive. The mother called 911 and the father performed CPR. EMS arrived at 12:48 AM and transported the infant to the hospital, where he was pronounced deceased at 1:43 AM.

An autopsy was not performed due to the parents' objection based on religious reasons. The infant's death was ruled accidental as a result of positional asphyxia due to obstruction of the nose and mouth which occurred when the infant was trapped in between the mattress and headboard. The medical examiner said there was no health issues reported and the infant had no marks or bruises. Law enforcement found no criminality and no arrest was made.

ACS substantiated the allegations of DOA/Fatality and Inadequate Guardianship against the mother based on a fair preponderance of evidence that the mother placed the infant to sleep on the adult bed on his stomach and he was left unattended in an unsafe environment. As a result, the infant was trapped between the mattress and headboard, and he died from positional asphyxia. ACS referred the family for grief counseling services and the parents accepted; however, the family relocated out of state. The mother and oldest sibling enrolled in grief counseling services in the new state. The family's new home was assessed to be safe, and the case closed on 8/2/22.

Findings Related to the CPS Investigation of the Fatality

Safety Assessment:

- **Was sufficient information gathered to make the decision recorded on the:**

Total number of deaths at incident event:

Children ages 0-18: 1

Adults: 0

Household Composition at time of Fatality

Household	Relationship	Role	Gender	Age
Deceased Child's Household	Deceased Child	Alleged Victim	Male	2 Month(s)
Deceased Child's Household	Father	No Role	Male	40 Year(s)
Deceased Child's Household	Mother	Alleged Perpetrator	Female	35 Year(s)
Deceased Child's Household	Sibling	No Role	Male	5 Year(s)
Deceased Child's Household	Sibling	No Role	Female	1 Year(s)

LDSS Response

ACS investigated the infant’s death by speaking to the source of the report, law enforcement, hospital staff, the medical examiner, the pediatrician, relatives, and neighbors. The parents and oldest sibling were interviewed, and the home was assessed to be safe. The children’s pediatrician reported no concerns for the infant or siblings’ health and collateral resources had no concerns for the parents’ care of the children.

Hospital staff reported that the infant arrived via ambulance to the hospital at 1:16 AM, and he was in cardiac arrest. The infant was cold and pale, and his blood was stagnant, indicating the infant had been deceased for some time. The infant was born full term and he was otherwise healthy. The mother reported to hospital staff that she co-slept with the infant nightly in the mother’s bed because he preferred to sleep in the mother’s bed. Prior to placing the infant in the bed to sleep, she had wiped the infant’s nose because he was stuffy. She said she checked on the infant at 12:30 AM and he was up by the headboard and unresponsive. She called 911 and EMS arrived at 12:48 AM. Hospital staff further reported that CPR was performed for 60 minutes by EMS and an additional 27 minutes by hospital staff prior to the infant being pronounced deceased at 1:43 AM.

Law enforcement said their interview with the parents revealed that the mother placed the infant face down with his head turned to the side, with a pacifier in his mouth, at 8:30 PM. She placed a couple of pillows around the infant on each side. Law enforcement believed the infant was looking for his pacifier when he became wedged between the mattress and headboard since the parents reported that the infant was already lifting his head up himself and he would look for his pacifier when he lost it. The mother told law enforcement she placed the infant on the bed because the mother did not like the bassinet.

ACS interviewed the parents, and their account of the incident was consistent with their statements to law enforcement and hospital staff. They additionally reported that they were aware of safe sleep guidelines, but the infant did not sleep well in the bassinet, and he only fell asleep on his stomach. The mother said she placed the infant in between two pillows about a foot away from the headboard at 8:30 PM. The parents said they were watching television in the living room, and the infant was still in the same position when the mother checked on him around 10:00 PM. The parents said they heard a little cry at 12:00 AM but then the cry stopped. At 12:30 AM, after checking on the two siblings, who were sleeping in their bedrooms, the mother brought a bottle into the bedroom to feed the infant. She found the infant with his arm and head stuck between the headboard and the mattress, and the pacifier was on the floor. The mother said she realized he was unresponsive, and she screamed for the father, who ran into the room and performed CPR while the mother called 911.

The mother said she was the primary caretaker of the infant and the father assisted with caring for the siblings. The oldest sibling was interviewed, and he reported no concerns.

Official Manner and Cause of Death

Official Manner: Accident

Primary Cause of Death: From an injury - external cause

Person Declaring Official Manner and Cause of Death: Medical Examiner

Multidisciplinary Investigation/Review

Was the fatality investigation conducted by a Multidisciplinary Team (MDT)? Yes

Was the fatality referred to an OCFS approved Child Fatality Review Team? No

Comments: There is no OCFS approved Child Fatality Review Team in New York City.

SCR Fatality Report Summary

Alleged Victim(s)	Alleged Perpetrator(s)	Allegation(s)	Allegation Outcome

Fatality Safety Assessment Activities

Child Fatality Report

	Yes	No	N/A	Unable to Determine
Were there any surviving siblings or other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of impending or immediate danger to surviving siblings/other children in the household named in the report:				
Within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 7 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 30 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an approved Initial Safety Assessment for all surviving siblings/ other children in the household within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any safety issues that need to be referred back to the local district?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When safety factors were present that placed the surviving siblings/other children in the household in impending or immediate danger of serious harm, were the safety interventions, including parent/caretaker actions adequate?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Fatality Risk Assessment / Risk Assessment Profile

	Yes	No	N/A	Unable to Determine
Was the risk assessment/RAP adequate in this case?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
During the course of the investigation, was sufficient information gathered to assess risk to all surviving siblings/other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of the family's need for services?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did the protective factors in this case require the LDSS to file a petition in Family Court at any time during or after the investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were appropriate/needed services offered in this case	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Explain:

Risk was adequately assessed and the family was referred for grief counseling services.

Placement Activities in Response to the Fatality Investigation

	Yes	No	N/A	Unable to Determine
Did the safety factors in the case show the need for the surviving siblings/other children in the household be removed or placed in foster care at any time during this fatality investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were there surviving children in the household that were removed either as a result of this fatality report / investigation or for reasons unrelated to this fatality?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Legal Activity Related to the Fatality

Was there legal activity as a result of the fatality investigation? There was no legal activity.

Were services provided to siblings or other children in the household to address any immediate needs and support their well-being in response to the fatality? Yes

Explain:

The family was referred for grief counseling services and the mother enrolled the oldest sibling in counseling.

Were services provided to parent(s) and other care givers to address any immediate needs related to the fatality? Yes

Explain:

The family was referred for grief counseling services and the mother enrolled in counseling.

History Prior to the Fatality

Child Information

- Did the child have a history of alleged child abuse/maltreatment? No
- Was the child ever placed outside of the home prior to the death? No
- Were there any siblings ever placed outside of the home prior to this child's death? No
- Was the child acutely ill during the two weeks before death? Yes

Infants Under One Year Old

During pregnancy, mother:

- Had medical complications / infections Had heavy alcohol use
- Misused over-the-counter or prescription drugs Smoked tobacco
- Experienced domestic violence Used illicit drugs
- Was not noted in the case record to have any of the issues listed

Infant was born:

- Drug exposed With fetal alcohol effects or syndrome
- With neither of the issues listed noted in case record

CPS - Investigative History Three Years Prior to the Fatality

There is no CPS investigative history in NYS within three years prior to the fatality.

CPS - Investigative History More Than Three Years Prior to the Fatality

There was no CPS investigative history more than three years prior to the fatality.

Known CPS History Outside of NYS

There was no known CPS history outside of New York State.

Legal History Within Three Years Prior to the Fatality

Was there any legal activity within three years prior to the fatality investigation? There was no legal activity.

Recommended Action(s)

Are there any recommended actions for local or state administrative or policy changes? Yes No

Are there any recommended prevention activities resulting from the review? Yes No
