54	New York City	6.8	NYC			

Note: Certain counties were excluded from the above table due to the following reasons: (1) counties with less than 50 Black children under 18 years; and (2) counties with less than 6 Black children with CPS reports. The following types of changes should be interpreted with extreme caution: (a) for small counties, particularly when the number of children in a particular category is small, sharp changes in disparity rates; and, (b) when disparity rate is available in one year and NOT for another, it indicates that the rate for the year where available was calculated on a small number, although above the requisite threshold.

¹ State disparity ratio is estimated using the total state numbers and the total includes numbers from counties not reported.

Black Disparity Rate: Unique Children in CPS Indicated Reports CY 2019

Disparity index is ratio of rate of unique Black children named as confirmed victims in CPS indicated reports per 1000 Black children under 18 in county relative to comparable rate for

White children

State disparity ratio ¹ =

2.53

Size Group Comparison

Note: Certain counties were excluded from the above table due to the following reasons: (1) counties with less than 50 Black children under 18 years; and (2) counties with less than 6 Black children named as confirmed victims in CPS indicated reports. The following types of changes should be interpreted with extreme caution: (a) for small counties, particularly when the number of children in a particular category is small, sharp changes in disparity rates; and, (b) when disparity rate is available in one year and NOT for another, it indicates that the rate for the year where available was calculated on a small number, although above the requisite threshold.

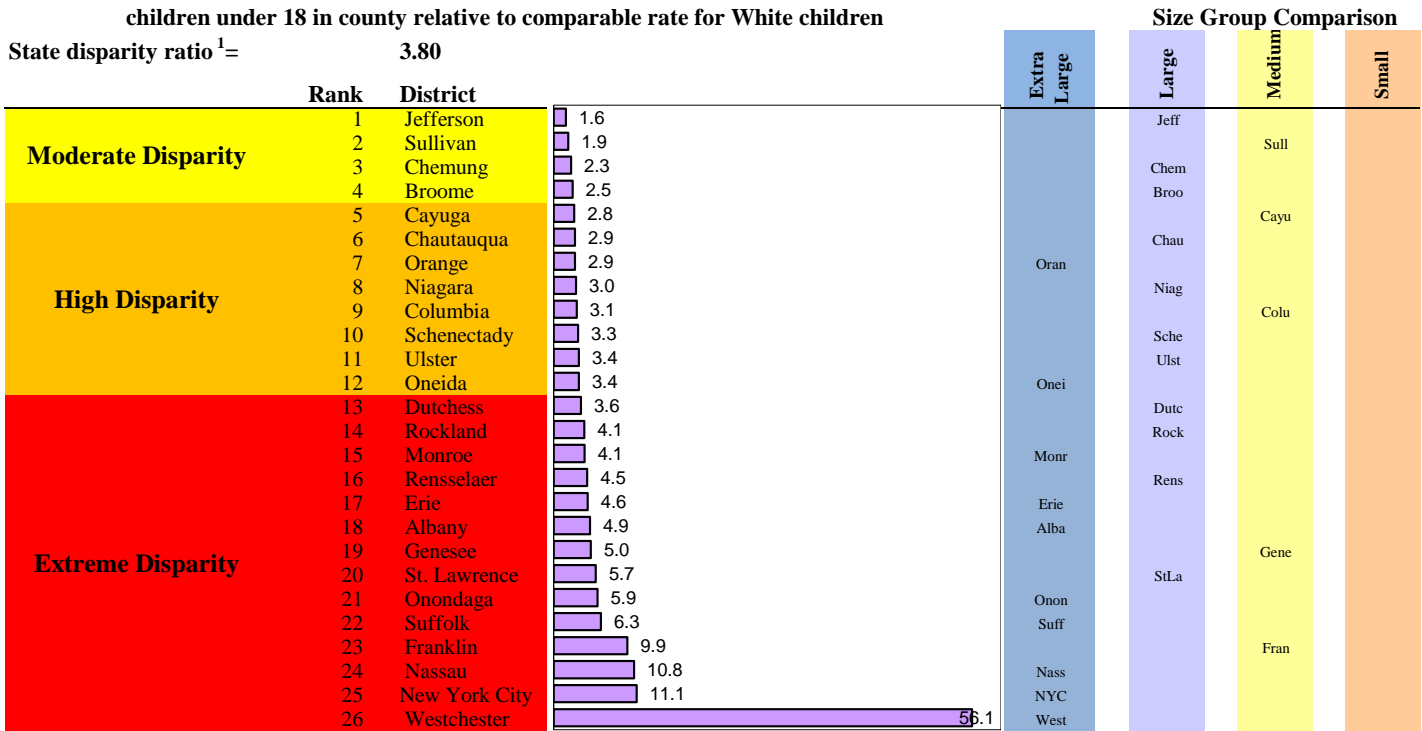

¹ State disparity ratio is estimated using the total state numbers and the total includes numbers from counties not reported.

Black Disparity Rate: Unique Children Admitted in CY 2019

Disparity index is ratio of rate of unique Black children admitted to foster care per 1000 Black children under 18 in county relative to comparable rate for White children

State disparity ratio ¹=

3.80

Note: Certain counties were excluded from the above table due to the following reasons: (1) counties with less than 50 Black children under 18 years; and (2) counties with less than 6 Black children admitted to foster care. The following types of changes should be interpreted with extreme caution: (a) for small counties, particularly when the number of children in a particular category is small, sharp changes in disparity rates; and, (b) when disparity rate is available in one year and NOT for another, it indicates that the rate for the year where available was calculated on a small number, although above the requisite threshold.

¹ State disparity ratio is estimated using the total state numbers and the total includes numbers from counties not reported.

Black Disparity Rate: Unique Children in Care CY 2019

Disparity index is ratio of rate of unique Black children in foster care per 1000 Black children
under 18 in county relative to comparable rate for White children

State disparity ratio ¹=
